MDT Software Welcomes Control Logic Pty Ltd as Master Distributor in Australia

This partnership will expand MDT's sales and support presence in Australia and help to deliver solutions to automation change management users across the country

ALPHARETTA, Georgia, March 15, 2019 – MDT Software, the world leader in change management solutions for automated manufacturing assets, today announced a new partnership with Control Logic Pty Ltd. As master distributor, Control Logic will serve as the primary sales and support contact for MDT Software in Australia.

Control Logic, with presence across Australia, is partnering with MDT Software to provide world-class sales and customer support to the current install base of MDT AutoSave and to pursue growth opportunities. Existing sales channels will be supported directly by Control Logic, with assistance from MDT Software (USA) as needed.

"Control Logic engaged in a significant product and market review regarding automation change management offerings and we are very pleased that Control Logic selected our AutoSave offering to take to market," explains Gary Gillespie, Vice President, MDT Software.

"Through our extensive in-house testing, Autosave came out as the clear winner providing a user-friendly scalable solution that provides flexibility based around the client's requirements" stated Lee Papadimitrious, General Manager Products & Marketing, Control Logic. "We were also extremely impressed with the entire MDT operations and their complete alignment with Control Logic in terms of their brand promise and business ethos – which made our decision even easier."
