

Status: Full time, employee

Reference code: MDT Software, QA Test Engineer

Job Description

MDT Software is a market leader in specialized, industrial automation software for Fortune 500 corporations. Manufacturing and process plants use our software to manage and safeguard the programming changes in their automation devices. MDT Software conducts business worldwide. Founded in 1987, MDT is a stable company that continues to experience growth and profitability.

MDT is seeking a QA Test Engineer to provide in-depth testing of our software product. This individual will conduct functional, operational, and performance tests on software prior to general release.

Job Duties

- Execute test plans as outlined by QA Manager
- Assist in the development of test plans, problem research, and test result analysis
- Work with Customer Support to solve problems and answer customers' questions as called upon
- Work with development and technical personnel to resolve problems and issues found in testing
- Document test results

Job Requirements

- 1 - 3 years of experience as a QA Test Engineer working with manufacturing software, or similar, or 1 - 3 years of experience as a controls engineer with a software background
- A degree from an accredited technical school or university, or equivalent
- Knowledge of Microsoft operating systems
- Ability to follow established procedures
- Ability to work independently with minimal supervision
- Detail oriented
- Good analytical and research skills to troubleshoot problems
- Basic Windows networking knowledge is preferred but not required
- Knowledge of, or experience with, programmable devices used in manufacturing (e.g. PLCs, robots, CNCs, HMIs) and experience with industrial control networks (e.g. Ethernet, Modbus, Devicenet) is advantageous

MDT Software offers an attractive salary and benefit package including medical, dental, life & disability benefits, paid vacation and a 401k plan with company contributions. MDT employees enjoy a commitment to work-life balance and a casual work environment.

For confidential consideration, please email your resume and salary expectations to: <mailto:recru-ga@mdtsoft.com>. If you do not meet the requirements, you will not be considered for this position. EOE.

This position is located at our Alpharetta, GA headquarters. No relocation or sponsorship is available. Additional company information is available at www.mdt-software.com.
