MDT Software Presented with the Water & Wastewater Co-Selling Success Award from Schneider Electric

This award recognizes the successful collaboration between the two companies to support key customers in the Water & Wastewater (WWW) industry

ALPHARETTA, Georgia, August 27, 2019 – MDT Software, the world leader in change management solutions for automated manufacturing assets, has received the “2018 EcoStruxure Water & Wastewater Co-selling Success” award from Schneider Electric’s WWW Segment and Collaborative Automation Partner Program. The award was presented at Schneider Electric’s Innovation Days: Alliance 2019 event held in Paris, France. This award was given to the partner who most effectively collaborated with the Schneider Electric EcoStruxure Water & Wastewater team to develop solutions that solve problems and satisfy customer expectations in the WWW market.

The MDT AutoSave Automation Change Management Solution is used by water utilities to control risk of customer service disruption and reduce hazardous situations that can result from unmanaged control system changes. Water & Wastewater facilities use AutoSave for version control, backups, change detection, historical tracking, and automatic change notification not only in large plants but also in highly dispersed field sites. Water & Wastewater utilities in numerous countries use MDT AutoSave to provide advanced change management support for their Schneider Electric devices.

MDT Software is part of Schneider Electric’s Collaborative Automation Partner Program (CAPP), which drives joint development of solutions for the company’s EcoStruxure™ architecture. EcoStruxure is Schneider Electric’s IoT-enabled, open and interoperable system

architecture and platform. Delivering Innovation at every level across connected products, edge control and apps, analytics, and services, the EcoStruxure architecture enables scalable design and operation of connected systems with best-in-class cybersecurity built in at every layer. MDT is also very active in working together with experts and innovators having their offer listed in [Schneider Electric Exchange](#).

“MDT has been a valued Schneider Electric partner for over 15 years,” said Mike Teller, Vice President, Global WWW Segment, Schneider Electric. “Our combined solution has solved technology problems for our joint customers in a number of industries and AutoSave is a key partner product within the Schneider Electric Water & Wastewater segment for enhancing and protecting our customer’s automation processes.”

About MDT Software, Inc.

MDT Software is the world leader in change management solutions for automated devices. MDT’s flagship product, AutoSave, empowers users to protect, save, restore, discover, and track changes in industrial programmable devices and plant-floor documents. AutoSave supports the most comprehensive range of devices and editors in the industry from Schneider Electric, Siemens, Mitsubishi, GE, Rockwell Automation and others. For more information on MDT and AutoSave, visit www.MDT-Software.com.
